

## 10 Ways To Get Ready For Kindergarten

1. Create a routine over the summer. Give your child a bedtime (8:00 PM is great!) and stick to it.
2. Have your child practice writing their first name. If your child can do this, try the last name, or practice lower case letters.
3. Use counting in your daily activities. Count how many steps it takes to get to the mailbox or the park. Count out snacks, placemats, napkins, silverware and so forth.
4. Take your child with you to the grocery store, post office, library, and on other errands. Talk with them about what they're seeing, hearing and touching. It's all part of learning!
5. Visit your local library and help your child get a free library card. Then use the card to visit the library each week and borrow books.
6. Let your child practice their independence by allowing them to make certain choices (*"Do you want an apple or a banana?"*), and by encouraging them to try new things and to problem solve.
7. Set a limit to the amount of TV your child watches (1-2 hours should be the maximum). When possible, watch TV with them and talk about what you see.
8. Prepare a "study spot" for your child and supply it with crayons, paper, scissors and other kindergarten "tools." Set aside a time each day for your child to "work" there. Once school starts this can become the time and place where your child does their homework.
9. Help your child know or be able to do following before they enter kindergarten:
  - Recite their name, address, and telephone number
  - Use the bathroom on their own and button and zip their clothing.
  - Share and play with other children. This will help them to adjust to their new kindergarten classroom.
10. Read, Read, Read! (In English or in your native language!)  
Kindergarten booklists can be picked up at your local library.

Talk about the books you read. Ask questions like:

- *What was your favorite part of the story?*
- *Which part did you like the least?*
- *Make predictions*
