Children's Museum
OF RICHMOND

CONTINUE THE LEARNING

Thank you for spending time with the Children's Museum of Richmond. We hope you enjoyed your educational program, Transportation Time!

We encourage learning to continue after the CMoR program, so try these activities to deepen understanding of transportation by land, air, and sea!

LESSON EXTENSIONS

- "Land, Air, Water" sorting activity (included below)
- "Transportation Time" Movement Game (included below)

ACTIVITY INSTRUCTIONS

""Land, Air, Water" Sorting Activity

Have students group and compare different kinds of transportation. Students (or the teacher) can cut out the different kinds of transportation provided below. Then on the scene page, students can have fun arranging the boats, planes, and vehicles in the scene.
If you have access to a laminator, laminate the scene page and the vehicle pieces and keep this sorting game for future exploration time.

"Transportation Time" Movement Game

Using the circles on the template below, the teacher or chosen student holds up one vehicle (example: the image is a plane). Then the students act out the prompt for that type of transportation. (example: Fly like a plane)

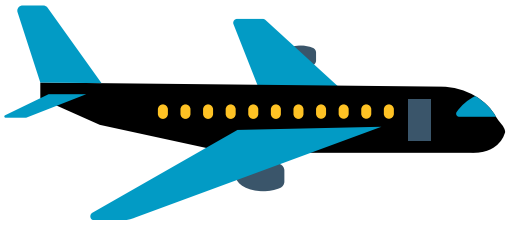

Level up by asking questions before students act/pretend, like:
"What is this type of transportation?"
"Does it belong in the air, water, or on land?"
"If you were traveling by _____, where would you go?"

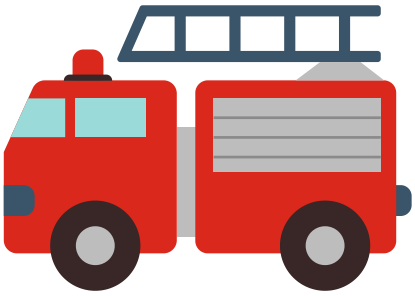

Children's Museum OF RICHMOND

LAND, AIR, WATER SORT

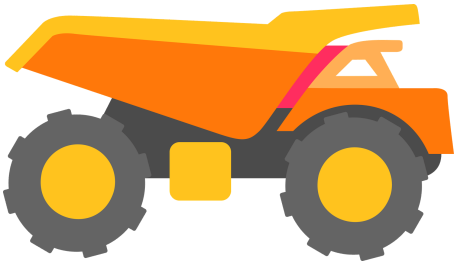

Cut pieces out and arrange on the sorting page.

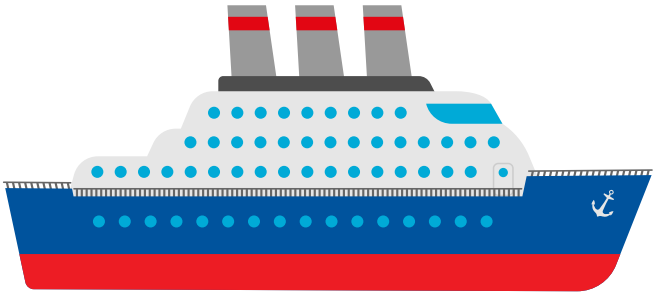

LAND, AIR, WATER SORT
